

“One Company, Many Locations, Global Service”

**Cranes**

## Eilbeck History

The Eilbeck family have engineering in their blood, going back four generations to the first Tom Eilbeck, who arrived in Western Australia in 1892 from Cumberland England. He was one of the first graduates of the University of Western Australia. In 1907 Tom Eilbeck went on to become the founder of T. Eilbeck and Son Limited, later becoming a distinguished businessman, not only recognised for his excellence in engineering but also for his political and business influence.

Today, current Managing Director of Eilbeck Cranes, Tom Eilbeck grandson of founder shares not only the same name but possesses an equal drive for engineering excellence and innovation. Traditional family values such as hard work and determination are not used as punch lines but rather have been foundation blocks in the history of this family's enterprise - Eilbeck Cranes. Today Eilbeck Cranes and Heavy Machining is proud to run seven manufacturing plants in Perth, Sydney, Melbourne, and Mackay, with many more service outlets spread throughout Australia.

Eilbeck Cranes has made its mark both nationally and internationally, as the only organisation to provide a serious challenge to the traditional European and Asian domination within the Crane Industry. Indeed, Eilbeck Cranes towers over the Australian market place with a winning share of the local market, and is proud to be recognised a serious contender on the international scale.

The Eilbeck Cranes story has all the ingredients to be regarded as Australia's greatest crane company; from its history, a devoted sales team, an innovative engineering team, a strong management team, and precision shop floor fabrication team, they all share the same core values.

## Melbourne Metro Early Works

1. Crane erection carried out in Melbourne CBD with road closure and at night.
2. 100T for lowering road headers & 50T High Speed Mucking crane at Franklin St site.
3. 50T Mucking Crane Installation & Load Testing at A'Beckett St.
4. 50T Mucking Hoist lifting 23m/min full load and 35m/min on empty.

# Melbourne West Gate TBM Cranes

500t (4x125T+40T) x 25(6+25+6)m span.  
250t (2x125T+40T) x 25(6+25+6)m span.

## Melbourne West Gate TBM Cranes

1. 500T Crane assmbling TBM module.
2. 500T Full Portal installation at West Gate Tunnel Project TBM site.
3. 15.6m diameter TBM cutter head.
4. 250t(2x125T+40T)x25(6+25+6)m span Full Portal crane.

# Melbourne West Gate TBM Cranes Manufacturing

1. 125T TBM assembly hoist.
2. ES-80 serial hoist design.
3. 500T sill beam and bogies assembled by father and son team.
4. 500T Full Portal TBM crane girders manufactured in Sydney.
5. 250(125+125)T x 12m cranes mounted on the 500T Portal crane.
6. Girder manufacture at Eilbeck's Sydney works.

## Melbourne Metro Portal Cranes

1. 20(10+10)T x 30 & 40m span plus 7.5m cantilver for segment storage.
2. 105T Hoist for TBM retrieval.
3. 105T Portal Crane at the TBM Eastern Portal Retrieval site.
4. 20T Full Portal Crane erection. CYP Ravenhall segment site.
5. 10(5+5)T x 24m segment handling crane.
